## LETTER OF RECOMMENDATION

I'm pleased to write this recommendation in favor of Miss Divya Munot, who directly reported to me for a year during 2020-2021 at Coding Club India (CCI). Currently, I hold the designation of CEO at Coding Club India. Coding Club is a community of coders among top engineering colleges in India. It organizes events and shares sessions with Alumni, coders, hackers, mentors. Divya joined our organization after winning Mission Helix 3.0 in May 2020.

Divya brings to all of her activities energy, enthusiasm, and commitment. This is to be expected in any successful member of an entrepreneurial organization, and in this regard, Divya fits in well. Be it in suggesting new methods and ways for promotion, techniques for attracting students to take up the CCI offered courses, or to efficiently manage the interns. This speaks to her overall intellect and ability to lead, attributes that will serve her well in her graduate study. After noticing her growing improvements, good leadership skills and exhibition of emotional maturity, she was promoted from Campus Ambassador Manager to the Chief Operating Officer position.

What I find most engaging in Divya's character is her wide-ranging interests and the balance she maintains with her work and interests. She is not only good at her managerial skills but also strong at her technical skills. She worked on building the CCI website with her team. She has worked on developing new activities for engaging Campus Ambassadors and creating posters for promoting courses. Divya's broad range of interests speaks well to her potential as a researcher, both in bringing a wide range of theories to the research at hand, as well as carrying forward new hypotheses of interest to researchers.

Divya Munot is a valued member of our organization whom we can rely on, regardless of the difficulty of the task at hand or the novelty of the challenge. Her combination of intelligence, commitment, perseverance, creativity, and compassionate character will certainly make her a valuable member of any academic program. I'm confident that she'll excel at the endeavors she takes up even post her master's program and I do wish her all the very best.

Rishabh Jain

Sincerely,

Rishabh Jain

CEO
